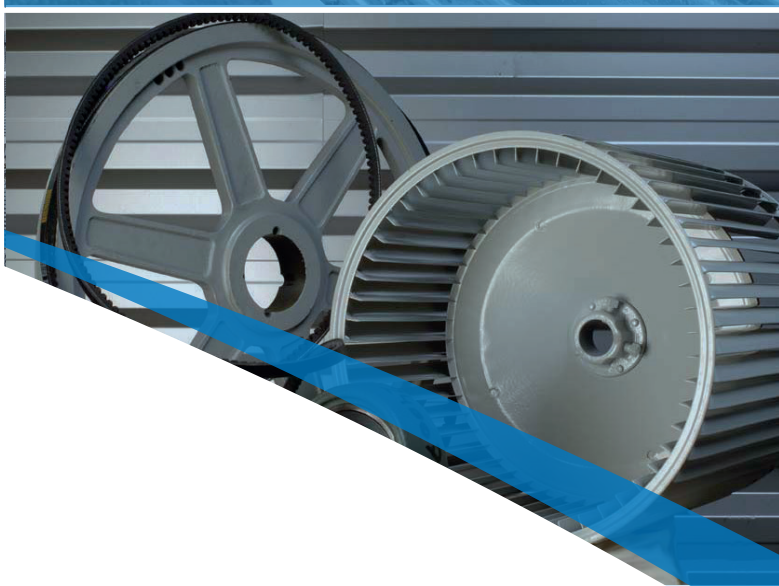
The SERVICE EXPERT for BAC Equipment

Tailored SERVICES and SOLUTIONS for your BAC cooling towers and equipment

BAC Inspect



YOUR DEDICATED PARTNER
IN INNOVATIVE HEAT TRANSFER
AND THERMAL STORAGE

ORIGINAL SPARE PARTS AND FILL

FOR AN EFFICIENT, SAFE AND YEAR ROUND RELIABLE OPERATION

We develop, design, test and manufacture most **parts, fills and eliminators in house** to ensure the highest quality and performance and safest operation.

We exclusively offer genuine BAC parts and fills to:

- **maintain** the designed **thermal performance**
- **lower** the **risk of premature failure**
- achieve the **lowest year-round operating cost**
- guarantee **safe operation**

Using BAC original parts, ensures a **first time fit** and offers **full traceability** of your equipment history.

SERVICE SOLUTIONS

PREVENTIVE MAINTENANCE, REPAIRS, REFURBISHMENTS, CLEANING AND DISINFECTION FOR RELIABLE, TROUBLE-FREE OPERATION

BAC's experienced service technicians ensure the **highest quality** work and expertise for any **repairs** or **refurbishments**.

We offer several **maintenance programs** for your BAC equipment. Our technician records the work done and makes suggestions for **replacement parts** or **remedial measures** to restore optimal operation and safety levels of your system.

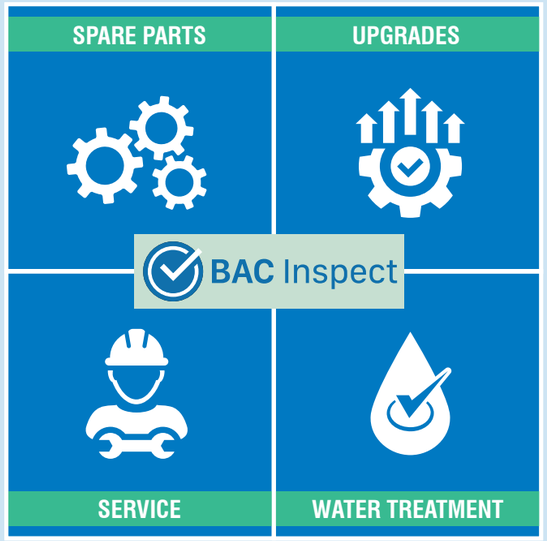
Our service team can also assist you with:

- **rigging supervision**
- **start-up** and **commissioning**
- **cleaning** and **disinfection**

All for the **most cost effective** and **most reliable operation** of your equipment.

Rely on **BAC's expertise** to **optimize** your **cooling equipment**

Get your **detailed** and **illustrated** inspection **report** from BAC's expert via our **UNIQUE tool**: BAC Inspect



Your inspection benefits:

- ✓ OPTIMAL PERFORMANCE
- ✓ LOWEST OPERATING COSTS
- ✓ YEAR-ROUND RELIABLE OPERATION
- ✓ MINIMIZE DOWNTIME

Preventive maintenance and skilled repairs

Water treatment

UPGRADES AND NEW TECHNOLOGIES

SAVE ENERGY AND IMPROVE MAINTENANCE BY UPGRADING YOUR SYSTEM

Most existing BAC equipment can be **upgraded** with new BAC technology and components.

Depending on your needs, you can:

- improve **maintenance** and **accessibility**
- enhance **operational safety**
- **reduce sound** emission
- **save** on **water** and/or **energy**
- increase **performance**
- increase **reliability**
- **monitor** your system **online**

These upgrades are essential to **improve** your equipment's **efficiency** and comply with any **new regulations**.

Upgrades and new technologies

WATER TREATMENT SOLUTIONS

EQUIPMENT FOR CONTROLLING CORROSION, SCALING AND PROLIFERATION OF BACTERIA

We offer a full range of **water treatment** equipment **optimized** for use in combination with your BAC equipment to **minimize water usage**, and **control corrosion**, **scaling** and **bacterial growth**.

We equally help you to control airborne contamination by installing **filtration equipment**. Together with the basin sweeper piping, our filters keep the recirculating cooling water **clean**, **optimize** the chemical usage and **minimize** the need for **physical cleaning**.
