

Ladder, safety cage and handrail

Refrigerant condensers

Options and accessories

Ladder, safety cage and handrail

A ladder, safety cage and handrails are all installed for **easy access to the unit top and easier and safer** inspection and maintenance, in line with **European and South African standards** .
For units equipped with these options, we also recommended installing steel drift eliminators.

Want to extend your condenser with these options for easier and safer inspections?
Contact your [local BAC representative](#) for more information.
