Standard coils

Standard coils

- In comprehensive [lab thermal performance tests](#), the coil showed proved thermal cooler performance and offers you unrivalled system efficiency.
- Developed and manufactured in house.
- The coil is constructed of continuous length of **prime surface steel**, hot-dip galvanized after fabrication.
- **Cooling coils** are designed for maximum 10 bar operating pressure according to PER.
- **Condensing coils** are designed for maximum 18 bar operating pressure according to PER. Pneumatically tested at 26.5 bar.

Need a coil for your evaporative cooling equipment? Contact [your local BAC representative](#)
